PUBLISHED BY SAMPSON, DAVENPORT & CO.,
No. 55 STATE STREET.

Entered according to Act of Congress in the year 1866, by SAMPSON,
DAVENPORT & CO., in the Clerk's Office of the District Court
of the Northern District of New York.

VAN BENTHUYSEN'S STEAM PRINTING HOUSE.

TO OUR PATRONS.

Notwithstanding other parties have this year undertaken to supplant us in publishing this annual, and that they secured the advertising and other patronage usually bestowed upon our work, before we were aware of the fact, leaving the impression with many of our patrons that they were in our service. We commenced the work at our usual time, in our accustomed systematic manner, and now present the result of our labors to the public.

The whole number of names in the edition of last year was 19,219; the number in this issue is 21,563; showing an increase over last year of 2,344 names. Of the 19,219 names in last year's edition, only 8,307 remain unchanged in this issue; and 6,704 have either changed their residence, business or business location. These figures show to some extent the complicity of the business, and they give evidence of the amount of labor required, as well as the faithfulness with which our work has been performed, yet, while we are aware that our experience in compiling the book during the past ten years, together with that of publishing many others during the past sixteen years, has given us advantages in the business over others, and made the work to us comparatively easy, we only allow these advantages to stimulate us to renewed efforts.

In every edition since 1857, we have introduced some improvement or addition which would tend to enhance its value as a book of reference; and this year we take pleasure in presenting to our patrons a fine copperplate map of the city, engraved by Messrs. Gavit & Co., on which the counties of Albany and Rensselaer are represented.

As some of our people have been led to believe that the Directory has been printed and bound at Boston; that the labor of collecting and compiling the names has been wholly performed by Bostonians, and that Albanians have generally been excluded from employment upon the work, we desire to state that such is not the fact; and if these persons would but take the second thought, they would see plainly that, while Albany affords all the facilities required, such a course on our part would tend quite as much to our disadvantage as to that of the city. From the year 1857 to the year 1864, Mr. Joel Munsell has annually printed the book for us, and during that time Mr. C. Van Benthuyzen has done the binding. Since the year 1864, Mr. Van Benthuyzen has done both the printing and binding; he has also manufactured type during the past year expressly for this business, and furnished, of his own manufacture, a good share of the paper consumed.

The names have always been mainly collected by Albanians, many of whom we have furnished with permanent employment during the past six or eight years. We can also say that, instead of any part of this work being taken from the city, we have annually brought business to it amounting to many thousand dollars. The Troy Directory, published by us for the past ten years, has annually been printed and bound here; The New York State Business Directory, issued by us, which work contains about twelve hundred pages, is also printed here; and other Directories have, and we have good reason to expect they will in future be printed and issued from this office.

In regard to being considered non-residents for having a branch office at Boston, we would say that a great many of our most prominent business men, who have partners and branch houses at Chicago, New York, or other cities, could with the same propriety be called non-residents.

To the business people who have so universally encouraged us by their patronage as well as words of cheer, we return our thanks; and by strict attention, with renewed exertions on our part, we hope yet to be found much more worthy of their liberal patronage.

THE EMERY AGRICULTURAL WORKS.

OFFICE, No. 2 JAMES, CORNER STATE STREET,
ALBANY, N. Y.

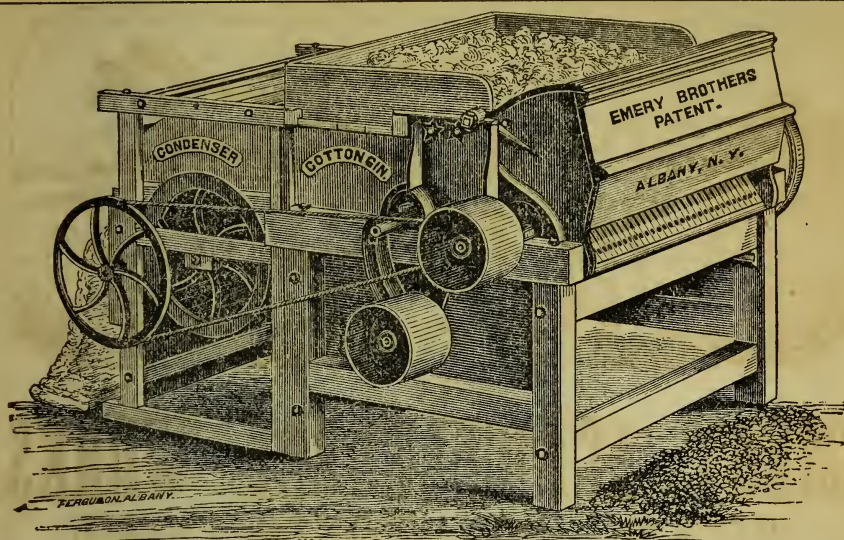

The attention of the public is respectfully called to the Latest Improved Farm and Plantation Machinery manufactured in these Works, under the personal superintendence of EMERY BROTHERS, who have long been known as manufacturers of superior and highly approved Agricultural Machinery, consisting in part of their celebrated PATENT HORSE POWERS, THRESHERS AND SEPARATORS, THRESHERS AND CLEANERS COMBINED, PORTABLE CIRCULAR AND DRAG CROSS-CUT SAWING MACHINES, SHINGLE MACHINES, CLOVER HULLERS AND CLEANERS, DOG POWERS, &c., &c.

Also, EMERY BROTHERS' Celebrated Patent
COTTON GINS AND CONDENSERS,
FOR HAND AND POWER.

HAND GIN

AND CONDENSER.

EMERY BROS.' PATENT COTTON GINS AND CONDENSERS,

Manufactured by

ALFRED B. FARR,

At the

EMERY AGRICULTURAL WORKS,

Under the personal superintendence of

EMERY BROTHERS (WM. B. & GEO. W. EMERY).

Office, No. 2 James Street, corner of State Street, Albany, N. Y.

These CELEBRATED COTTON GINS and CONDENSERS are manufactured in the most thorough and substantial manner; they are compact, durable and efficient, and contain many VALUABLE IMPROVEMENTS made and added to them by EMERY BROTHERS (who were the PIONEERS in Cotton Gin manufacturing in Albany), during several years' experience in making and using Cotton Gins, thereby rendering these Gins capable of ginning MORE COTTON per day, with same power expended, WITHOUT INJURY TO THE STAPLE, than any others yet introduced in the world.

With the Condensers attached, these Gins require but a small space to operate in, as the ginned cotton is discharged from the Condenser in a thick sheet, or bat, and free from the dust and sand that is separated from the cotton by the Condenser and Cleaner attachments; thus delivering the cotton in the cleanest possible condition and most convenient manner for handling and baling.

With these Condenser attachments these Gins can readily be operated under any temporary shelter, or even in the open field, or moved from one plantation to another when desired, or where no Gin houses are built, and without any loss of time, as the cotton is ready for packing and baling as fast as it is ginned.

Cotton growers, dealers and others wishing the BEST Cotton Gins, either with or without Condensers or Horse Powers to drive them, will find it for their interest to procure the EMERY BROTHERS' PATENT COTTON GINS from these Works.

Illustrated Descriptive Circulars and Price Lists furnished gratis on application by mail or otherwise.

Orders solicited and promptly and faithfully executed.

Atlantic Mutual Life Ins. Co.

Advantages Peculiar to this Company.

PROMPT PAYMENT OF LOSSES.

All losses are *by the terms of the policy* made payable immediately upon the receipt of satisfactory proofs of loss, and not as is usually the case, at the expiration of *sixty or ninety days*.

SECURITY AGAINST ERRORS.

To prevent an intended legacy from becoming the subject of a law-suit, all policies issued by this Company are by their terms indisputable at the expiration of seven years, against fraud or error in the statements made in the original application.

EXTRA CHARGES.

This Company will permit no agent to charge insurers for policy or stamp.

POLICIES NON-FORFEITABLE.

In every case of three or more annual cash payments being made, policies will be rendered non-forfeitable to the amount of premiums paid. That is to say, that if application is made within six months after the lapsing of any policy upon which three or more annual cash premiums have been paid, the assured will be entitled to a paid up policy equal to the whole amount paid thereon.

DIVISION OF SURPLUS.

With the reservation of legal interest to stockholders and a reserve fund to be used for the purpose of retiring the Capital Stock, all profits are by the terms of the Charter apportioned among the Policy-holders.

Atlantic Mutual Life Ins. Co.

AMOUNT INSURED.

Policies will be granted on first class lives to any amount not exceeding \$10,000.

MEDICAL EXAMINATIONS.

When application is made for insurance in any amount exceeding \$5,000, two separate examinations by different physicians will be required.

AGES INSURED.

When insurance is desired by persons whose ages exceed those specified in the tables, special rates, will be given by application to the Home Office.

MEDICAL TREATMENT AS AFFECTING RATES OF INSURANCE.

Believing as we do that the systems of medical practice, as affecting the duration of life, are well worthy of consideration by Life Insurance Companies, and basing our calculations upon data in our possession showing the decreased rate of mortality under what is known as the "Homeopathic System of Medicine," we have concluded to make a deduction of ten per cent. from the table rates upon each payment of premium by those habitually using this mode of treatment. In case of medical practice being changed, the same rates will be charged as to those insuring under other modes of treatment.

AS AFFECTING DIVIDENDS.

In order however that no injustice may be done to those preferring other schools of medicine, all apportionment of profits under the reduced rates will be separately made.

Atlantic Mutual Life Insurance Co.

CREDITS.

Whenever considered desirable by those insuring upon the common life table, with profits, a note will be taken for forty per cent. of the premium.

Or in case of the insurance being taken upon the "Ten Year Life" table, a loan of twenty-five per cent. of the premium will be made upon the same terms.

DIVIDENDS, HOW APPLIED.

Dividends will be declared on all participating policies, which have existed twelve months prior to the first day of January in each year, and upon which more than one full year's premium has been paid.

Each dividend will be redeemed in three years from the time it is declared. If the assured has availed himself of the credit, the dividend, when redeemed, will be applied to the payment thereof; otherwise he may receive it in cash, or in case of the dividends being in excess of the amount of credit taken the insured may receive the balance in cash.

NON-FORFEITABLE ENDOWMENT.

This plan has become so deservedly popular that we hope that all our Agents will familiarize themselves with the details of the system, in order that they may be the better able to present it for the consideration of all desiring insurance. It will, we are confident, be found to meet the views of a class of business men, whose wants have heretofore been but inadequately met.

THE NEW YORK CENTRAL RAILROAD, running the entire length and through the most populous part of the State, forms one of the great, oldest and best managed links of communication between the East and the West.

It has two Eastern termini, one at Albany and the other at Troy, connecting at Schenectady and running thence West through Utica, Rome, &c., to Syracuse, from which point there are two roads running to Rochester known as the "Direct Road," via Port Byron, Lyons, &c., and the "Old Road," via Auburn, Cayuga, Geneva, Canandaigua, &c. From Rochester there are also two roads running West, one through Lockport, &c., to Niagara Falls, and the other through Batavia, &c., to Buffalo. Also, a branch commencing at Buffalo and running along the banks of the Niagara river, through Tonawanda and the village of Niagara Falls to Lewiston; and likewise a branch from Tonawanda to Lockport.

At either Albany or Troy passengers for New York and intermediate places connect with the Hudson River Railroad, Harlem Railroad, or (during the season of navigation) with North River steamers. Passengers for Pittsfield, Springfield, Worcester, Boston, Hartford, New Haven, Providence, and intermediate places, connect with Western R. R. and its connections. Passengers for Saratoga Springs, Rutland, Burlington, Montreal and all places North, also connect by railroad, from either Albany, Troy or Schenectady.

Passengers for Sharon Springs leave the Central Railroad at Palatine Bridge and go from there by stage. Those for Cherry Valley, Cooperstown and places South, leave at Fort Plain. Those for Trenton Falls leave at Utica and go by railroad. Those for Watertown and places North connect with the Rome & Watertown Railroad at Rome.

At Syracuse the Central R. R. connects with the S. & B. R. R., running to the Erie R. R. at Binghamton, and with the O. & S. R. R., running North to Oswego.

At Canandaigua with the Northern Central Railway for Elmira, Baltimore and Philadelphia.

At Rochester with the Erie R. R., and with steamers for all ports on Lake Ontario.

At Buffalo with steamers on Lake Erie (during the season of navigation), and with the Lake Shore R. R. to Erie, Cleveland, Sandusky, Toledo, and thence to Chicago by Michigan Southern R. R.

At Niagara Falls passengers connect with the Great Western R. R. [Canada] to Detroit, and from thence to Chicago by Michigan Central R. R.

At Lewiston and Charlotte passengers connect [during the season of navigation] with steamers for Toronto and all ports on Lake Ontario.

FEMALE ACADEMY.

This is one of the oldest institutions for the education of females in this country. Its Graduates and Pupils, many of whom have enjoyed its advantages from the very commencement of school life, are to be found in all parts of the land, and adorn the highest social positions.

The Trustees have spared no pains or expense in furnishing it with the most approved and complete appointments, and with a corps of Teachers believed to be unsurpassed in any similar institution.

In addition to its regular course of English studies, facilities are afforded for the acquisition of every accomplishment belonging to a liberal culture and a complete education.

GYMNASTIC EXERCISES

Are daily practiced under the direction of a lady who devotes her whole time to the Department of Physical Education.

ALBANY AGRICULTURAL WORKS,

ALBANY, N. Y., U. S.,

Hamilton Street, corner of Liberty and Union Streets.

HORACE L. EMERY & SON,

Patentees and Sole Proprietors and Managers.

The above CELEBRATED WORKS were originally organized and erected during the years 1847, '48 and '49 in this CITY OF ALBANY, by the present senior proprietor, who has since then, and almost without interruption, been directly or indirectly connected with them as proprietor and manager alone or with others, and more recently with his junior brothers, under the firm and title of EMERY BROTHERS, down to the year 1862, when he left the country to attend the WORLD'S EXHIBITION at London, with some of his leading articles of his invention and manufacture, where he remained with them nearly two years.

During the long period from 1850, the machines Manufactured at these Works, have acquired a world wide reputation for Excellence of Construction, Utility, Durability and Cheapness, which is second to that of no similar Establishment in the World. The articles here made, have found a ready demand and large sale, in every part of this and other countries, where they have been introduced, and such labor saving machines are used.

While abroad, he exhibited several of his leading Machines at the Great World's Fair with entire satisfaction, and which resulted in establish-

ing the manufacture of them there on a large scale, and which is constantly increasing.

During the time (nearly two years) he devoted his entire attention to the interests of agriculture and Agricultural machines, and the Wants as well as the supplies of all countries there represented, and especially to those of Great Britain, France and Russia, and the South American Countries—losing no opportunity to acquire a knowledge of and adopt so much of them as were useful or desirable for our own country. On his return here, in the early part of 1864, he purchased out the entire interests, in and to these ALBANY AGRICULTURAL WORKS, together with the entire assortment, and large stock of Patterns, Machinery Material and business, and continues the same, at the old stand. He has since greatly increased his facilities, and improved upon the old, and added many new patterns and styles of machines, which from his experience and observation have appeared desirable, all of which he now offers to the public at large, assuring them that no efforts or expense will be spared in furnishing them with the best of everything of its kind in his line extant, and he earnestly solicits a continuance of the long and liberal patronage heretofore enjoyed by this house, from a discerning public.

• With the close of our Civil War and the resumption of industrial pursuits, is following a wave of emigration into the Southern States of a Free, Intelligent, Agricultural and Laboring Population, carrying with it the requisite Capital and Labor-Saving Machinery, and Implements of the most approved and latest designs of construction, which will permeate all portions of those States, and especially those whose soil and climate are adapted by nature for the production of that wonderful staple, Cotton.

Among these machines none are of so great importance as those used in the production and preparation of this staple for the markets of the world, and Universal Cotton Gin and Condenser, with the Endless Railway Horse Power, with its Speed and Safety Governor Attachment rank the first in importance among them all. The Endless Railway Horse Power, when propelled by two horses, will drive a Thirty-five to Fifty Saw Gin and Condenser to clean from two to four bales per day, according to size of Horses, Mules or Oxen and the kind and condition of the seed cotton—the animals at the same time traveling as upon the roadway without requiring any kind of harness or gear, the speed being fixed by the governor to accommodate their natural gait and the work being done. This Horse Power is also fitted with a series of gears and pulleys which will, by changes and transpositions, produce any desired speed of the driving band pulley without affecting the travel or labor of the animals, thus making this power adapted to all kinds of work on farm or plantation. The Gin and Condenser was quite extensively introduced prior to the War, and with uni-

form good success, in some of the best portions of the Cotton States. It was universally approved at the World's Fair at London, and by the Manchester Cotton Supply Association at Manchester, England, and adopted by them, and also adopted by the East India Cotton Agency Company, one of the oldest and largest Houses in the Cotton business in India; also by several of the Governments—as Turkey, Brazil, Egypt, Italy, Greece and India—in their respective efforts for the introduction of the culture of this staple.

Its merits are also even more fully indorsed by those using them in our own country during the past year; and numerous letters and testimonials are received and coming to hand from parties having used them, and as an average sample of their character copies of several of them are hereto annexed; stating that the cotton from the same plantations run through this Gin and Condenser uniformly commanded from TWO to FIVE CENTS per pound over that by the best of other Gins in use.

These Gins and Condensers are made for Hand Use, of several sizes, capable of making one to two bales per day of clean cotton; also for Horse and Steam Power, with capacity from two to ten bales per day. They can be used with or without buildings, are proof against fire, and entirely portable and complete for use, and are all tested practically before being delivered from the Works.

These Gins, Condensers and Powers are offered to the public, and warranted to give entire satisfaction, or no sale. Orders solicited.

Descriptive Catalogues and Price Lists forwarded gratis, on receipt of a Letter Stamp.

Liberal inducements allowed to Dealers. (OVER)

ALBANY, N. Y., U. S.

CHARLESTON, S. C., Jan. 15, 1866.

MESSRS. HORACE L. EMERY & SON:

GENTLEMEN—We are pleased to inform you that we recently sold one of your 18 Saw Universal Cotton Gins and Condenser, for hand power use to a party near this city, and recommended it to gin and clean four hundred pounds of lint per day, with two hands to turn the cranks.

The purchasers inform us that it gives perfect satisfaction, and that it is cleaning five hundred pounds easily per day.

Please send us by first steamer two more 18 Saw Gins and Condensers, one of which please have fitted for Ginning Long Staple Sea Inland Cotton.

P. S.—The New York Cotton Gin Company sent us for sale an 18 Saw Cotton Gin. It has been carefully tried and tested beside the Universal Gin and Condenser. It does not work near as easily, or clean as fast as yours. It also cuts and carries through the ribs with the lint all the imperfect and small seeds. The Cotton Roll in the hopper having no picker roller supporter does not work as well as yours, which has that valuable improvement.

Yours truly,

LITTLE & MARSHALL,
 Dealers in Plantation Supplies
 and Machinery, Charleston, S. C.
 NEWBERN, N. C., April 4, 1866.

MESSRS. HORACE L. EMERY & SON:

GENTLEMEN—I take pleasure in informing you that the thirty-five Saw Universal Cotton Gin and Condenser purchased from your house in 1864, has been in use through two seasons, and has been removed and used on many different plantations. It is readily driven by two mules. Gives us more lint cotton, and of much better quality from the same amount of seed cotton than any other Gin I have seen in my travels in the cotton business throughout five of the best cotton growing states. All the cotton cleaned by your Universal Gin and Condenser, has uniformly commanded from two to three cents per pound over that of the same grade from other gins in this market, for the two seasons last passed.

The condenser attachment is indispensable in my estimation. This gin and condenser easily cleans two thousand pounds of lint per day, with two mules, which is nearly double the amount that any other gin can do with the same amount of power.

You are at liberty to use any portion of this letter which you may desire. All the foregoing statements can be verified by affidavits of many planters and others, if you wish for it. The man who has the gin in use is now here, and endorses all I have written. I have several applications from planters to furnish gins and condensers of your manufacture, and will order them forward for them in time for the new crop.

I am yours truly

JOHN SATERLEE,
 Cotton Broker and Com. Merchant, and
 SATERLEE, LYON & CO.,
 331 Pearl street, New York.
 NEWBERN, N. C., March 7, 1866.

MESSRS. HORACE L. EMERY & SON:

GENTLEMEN—We reply to your inquiry concerning the Gin furnished us by you, &c. In September, 1865, we purchased from your agent in New York, one of your seventy Saw Universal Cotton Gins, and used it in our Ginning Establishment in this city, during the season, by the side of an Eagle Gin of the same size, both discharging into the same lint room. We think the outturn from each gin was about the same in amount per day.

The Universal Gin, however ginned the seed so much cleaner that we immediately telegraphed your house at Albany for another of the same

size for use on our plantation, where we laid aside a new double cylinder gin of Brown's patent, made by the New York Cotton Gin Company.

We are satisfied that the amount of cotton saved, by the cleaner work done by your Universal Gin has paid, at least half its cost, in ginning our crop the past season, besides making a better sample.

So far from what we have seen we should give your Universal Gin Stand a decided preference over all others we have ever used or seen, and should order from you the same kind, if wanting another.

J. A. HASKELL & CO.,
 Cotton Brokers and Com. Merchants,
 Late FISHER & HASKELL.

NOTE—The velocity of the teeth of the Eagle Gin in this instance was double that of the Universal Gin, as the diameter of the saws was one-third greater, and the diameter of the drawing pulley one-third smaller than those of the Universal Gin.

ELIZABETH CITY, N. C., March 22, 1866.

MESSRS. HORACE L. EMERY & SON:

I take pleasure in informing you that I purchased in November, 1865, one of your Universal Gins with forty saws, through your agent, Mr. March of Norfolk, Va., which was put in operation early in December, from which time it was in constant use during the season. The work was done with less power—the cotton of the same grades was cleaned better and commanded a higher price, and sold more readily than that from any other gins I have ever seen, and I am an old planter—all who witnessed its operation were so well pleased with it that two other gin stands in this neighborhood, have been unable to get any ginning to do since I commenced using my gin—and on the whole it is decidedly the best gin stand I have ever seen.

I am respectfully

D. D. RAPER.
 AUBURN, N. Y., May 17, 1865.

MR. HORACE L. EMERY;

DEAR SIR:—The Fifty Saw Universal Cotton Gin and Condenser, we purchased from you last season, I used on the plantation in Louisiana, leased by us, and can assure you it was far ahead of the Gins in use there now, as can be. I tried it side by side, with the "St. Charles Gin," and yours produced from the same Seed Cotton, a much better lint and a better staple. So much so, that a difference of five cents per pound was made in favor of all which was run through your machine. Several Old Planters took especial pains to examine them, and were perfectly satisfied of their great improvements over their old styles. The idea of Ginning Cotton *out of doors*, completely astonished them. I am satisfied if yours were introduced, they would almost entirely displace all other kinds.

With your Two-Horse Endless Railway Power, with Gin and Condenser, a very large sale could be made in the Barnt District, through Alabama, Georgia, and the Carolinas, where their Gin Houses are "non est." If desirable, I can procure for you testimonials to the same effect, from planters and parties living in Louisiana, who have operated them, aside from any interest I may have in them.

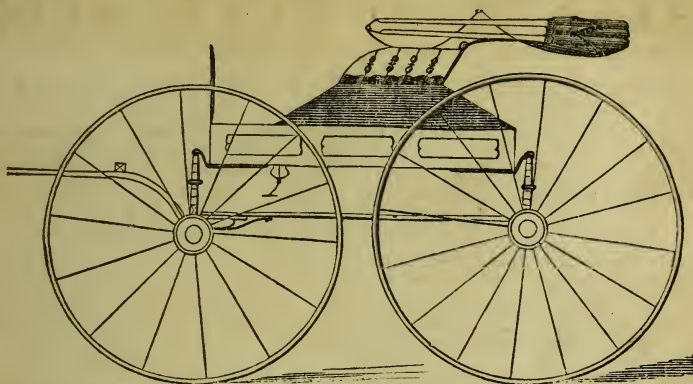

I am Sir, Yours Respectfully,
 HENRY B. FITCH, Auburn, N. Y.

The following is only one of the many equally flattering testimonials in my possession, showing the superiority of these scales over all others:

In the fall of 1855, I purchased of Mr. R. Groom, for the use of the Albany Gas Light Company, a 5000 lb. Dormant Warehouse Scale of his manufacture. In the following spring, that having given good satisfaction, I purchased a four ton hay scale of the same manufacturer. The next fall I purchased a six ton hay scale of Mr. Groom, and subsequently, another warehouse scale; all of which have given perfect satisfaction. I consider them as having no superior, if indeed equal, in the market.

PIANO FORTES,

WHOLESALE AND RETAIL, AT THE

WAREROOMS AND FACTORY, COR. OF BROADWAY AND NORTH FERRY STREET.

The INSULATED IRON RIM AND FRAME PIANO FORTES, are unequalled in all that constitutes a
PERFECT INSTRUMENT.

They are all made under the supervision of James A. Gray, who has been engaged in the business over 26 years. The public can therefore be assured that if experience is a criterion, all the combinations required to make a perfect instrument are blended in these. These Piano Fortes have received **TWENTY GOLD MEDALS AND DIPLOMAS** from the different Fairs and Institutes. An illustrated circular will be sent on application, from which a person can select with full confidence that as good an instrument will be sent as if the person selected for himself.

New Illustrated Edition, thoroughly revised and much enlarged.

OVER 3000 FINE ENGRAVINGS,

Of constant use and convenience in

EVERY INTELLIGENT FAMILY.

It contains 10,000 WORDS and MEANINGS not found in other Dictionaries.

Over thirty able American and European scholars employed upon this revision, and THIRTY YEARS of labor expended upon it. It is now believed to be by far the most complete, useful and satisfactory Dictionary of the language ever published, as it is by far the largest single volume ever issued in any language.

The possession of any other English Dictionary, or any previous edition of this, cannot compensate for the want of this very full and complete one. In its present perfected state, it must long remain the **BEST ENGLISH DICTIONARY**, and once possessed, remain of constant and abiding value.

What book, beside the Bible, so indispensable as a good Dictionary?

Containing one-fifth or one-fourth more matter than any former editions.
